

Merouane Grissen – FullStack developer

Khouribga, Morocco
(+212) 694808033
mgrissen9@gmail.com

Skills :

- **Frontend Development:** Proficient in JavaScript, TypeScript, React, and Next.js. Experienced in using styled-components for managing styles.
- **Backend Development:** Strong understanding of Node.js. Currently learning Django for backend development and have experience with Nest.js.
- **DATABASES:** MongoDB, PostgreSQL.
- **DevOps:** Skilled in Docker for containerization and deployment, ensuring reliability and efficiency in production environments.
- **Problem-Solving:** Equipped with a strong problem-solving mindset developed through hands-on projects and challenges at 42 Network
- **Programming Languages:** Proficient in C and C++, with a solid foundation in computer science principles.

Education :

September 2021 -present

Mohammed VI Polytechnic University 1337 (42 Network) – *Computer Science*

- Completed The Common Core Programme

Projects :

WEBSERVER:

- Description: A C++98 HTTP web server developed from scratch, implemented to support HTTP GET, HEAD, POST, PUT, DELETE requests, and serve static files from the specified root directory or from dynamic content via CGI.

INCEPTION:

- Description: Used a small system built on WordPress with LEMP Stack (Nginx, MariaDB, and PHP) using Docker/Docker-Compose. Gained experience in system administration using Docker.

TRANSCENDENCE:

- Description: A real-time online pong tournament website implemented using Nest.js, React, Next.js, and PostgreSQL. Features real-time gameplay, chat, group chat modes, friend status, guilds, and ranking system.

About Me :

Passionate full-stack developer with a focus on creating intuitive web application interfaces. Experienced in both frontend and backend development, with a strong problem-solving mindset. Eager to tackle challenges and continuously enhance skills.
